David:

Please see the attached application. Essentially we denied the Title 123 application, but said it could operate as a pilot study. The process is clarification followed by a sand filter then carbon (coconut).

Thanks,

Tom

Dave:

Attached is the pilot study approval letter. I'll send you the application in a separate email.

Subject: ALTEn pilot study

Hi there,

Do you have any info that you can share on this approved pilot study that was just mentioned? We're not in the loop on that, and understanding it will help us better understand what Ex. 4 CBI is planning. Thanks -
